Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeCampi (5,571,127) in view of Roberts et al. (5,344,424) and further in view of Haber et al. (5,599,351). DeCampi discloses a surgical disposable scalpel comprising a sharp blade 50, a blade-fixing member 40 fixed to the rear end of the blade 50, and a handle 20 enclosing the blade-fixing member 40. Roberts teaches a surgical scalpel 10 comprising a sharp blade 14 integrally fixed to the blade-fixing member 33. It would have been obvious to one having an ordinary skill in the art at the time the invention was made to modify DeCampi by having the blade integrally fixed to the blade-fixing member in view of Roberts to eliminate connection between the blade and the blade-fixing member. DeCampi in view of Roberts discloses the invention as claimed, including a first fixing projection 27 extending from the top surface of the blade-fixing member 40, except for the second fixing projection. However, Harber discloses a surgical scalpel as shown in figure 5 comprising a blade-fixing member (S3,D3) having a first fixing projection 114 interlocked with the first fixing groove 108 and a second fixing projection 122 interlocked with the second fixing groove 104. It would have been obvious to one having an ordinary skill in the art at the time the invention was made to

further modify DeCampli by having a second fixing projection interlocked with the second fixing groove in view of Harber to provide an interlocking means when the blade-fixing member is retracted into the blade enclosing member.

Regarding claim 3, DeCampli discloses the main body 20 defining a cavity for receiving the blade-fixing member 40, separation-preventing plate (21a,21b) and reciprocating aid slot 28.

Regarding claims 4-6, same as to claims 2-3 above.

Response to the Applicant Arguments

Applicant's arguments filed on 8/10/05 have been fully considered but they are not persuasive. The examiner uses the Roberts et al. reference for the teaching of a sharp blade 14 integrally fixed to the blade-fixing member 33. This teaching is clearly shown in figure 4.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
